

Energizer® the new look of power

ULTIMATE LITHIUM

- Lasts up to 9x longer* in digital cameras for 9x less waste**
- Last up to 7 hours longer* in handheld GPS devices
- Performs well in extreme temperatures, from -40°F to 140°F (-40°C to 60°C)
- Great for use in flashlights, cameras, GPS equipment, digital and wireless devices

*vs. Energizer® MAX®. Results vary by device.
**use less batteries, create less waste

INDUSTRIAL

- Energizer® Industrial® alkaline batteries are trusted by working professionals and have the same long lasting power and reliability of Energizer® MAX® batteries
- No mercury added
- Excellent shelf life
- Excellent for devices you use every day at work or on the job: flashlights, clocks, calculators, laser levels, stud finders, handheld digital devices, and many more

max

- Long-lasting power for your everyday life
- Makers of the World's 1st* Zero Mercury AA Alkaline Battery
- Excellent for devices you use every day: flashlights, smoke detectors, door locks, toys, clocks, two-way radios, label makers, and remote controls

*commercially available since 1991

RECHARGE

- Reusable power that lasts up to 4x longer* in digital cameras (AA)
- Charges hundreds of times
- Economical power solution for high-tech devices
- Great for use in digital cameras, wireless gaming accessories, GPS equipment, portable audio players, and flashlights

*vs. Energizer® MAX®. Results vary by camera and usage.
